integrations

7 reasons why LUMO Interactive is needed for your education customers

- Touch-free experiences are in demand more than ever before
- Education through interactive engagement is a high priority among teachers
- Interactive projection is a popular treatment for children with Autism, ADHD, and sensory challenges
- LUMO's Motion Maker system is code-free, and an ideal early intro to STEM activities
- LUMO hardware kits offer a full range of display options, from small classroom solutions to gym and recreation room activities
- LUMO includes over 200 apps, with tools for teachers to create their own apps and courses
- No special installation skills are required to install a LUMO kit – any local audio-visual company or internal IT department can install a system, usually in under an hour

Take the following tour.

See what LUMO Interactive makes happen.

Over 200 apps
& experiences
for floors, walls,
tables & more.

Create mess-free active spaces.

Encourage
creative
engagement,
role playing, and
physical activity.

Set up in under
an hour. No
special training
required.

A close-up, high-angle shot of a hand holding a stylus over a tablet. The stylus is white with a green textured grip. The tablet screen displays several colorful app icons, including a purple one with a white swirl, a green one with a white leaf, and a blue one with a white heart. The word 'App' is visible on the screen. The background is dark and out of focus.

Apps, games,
and creation
tools for
students
aged 2 and up

Multiplayer apps
improve social
skills.

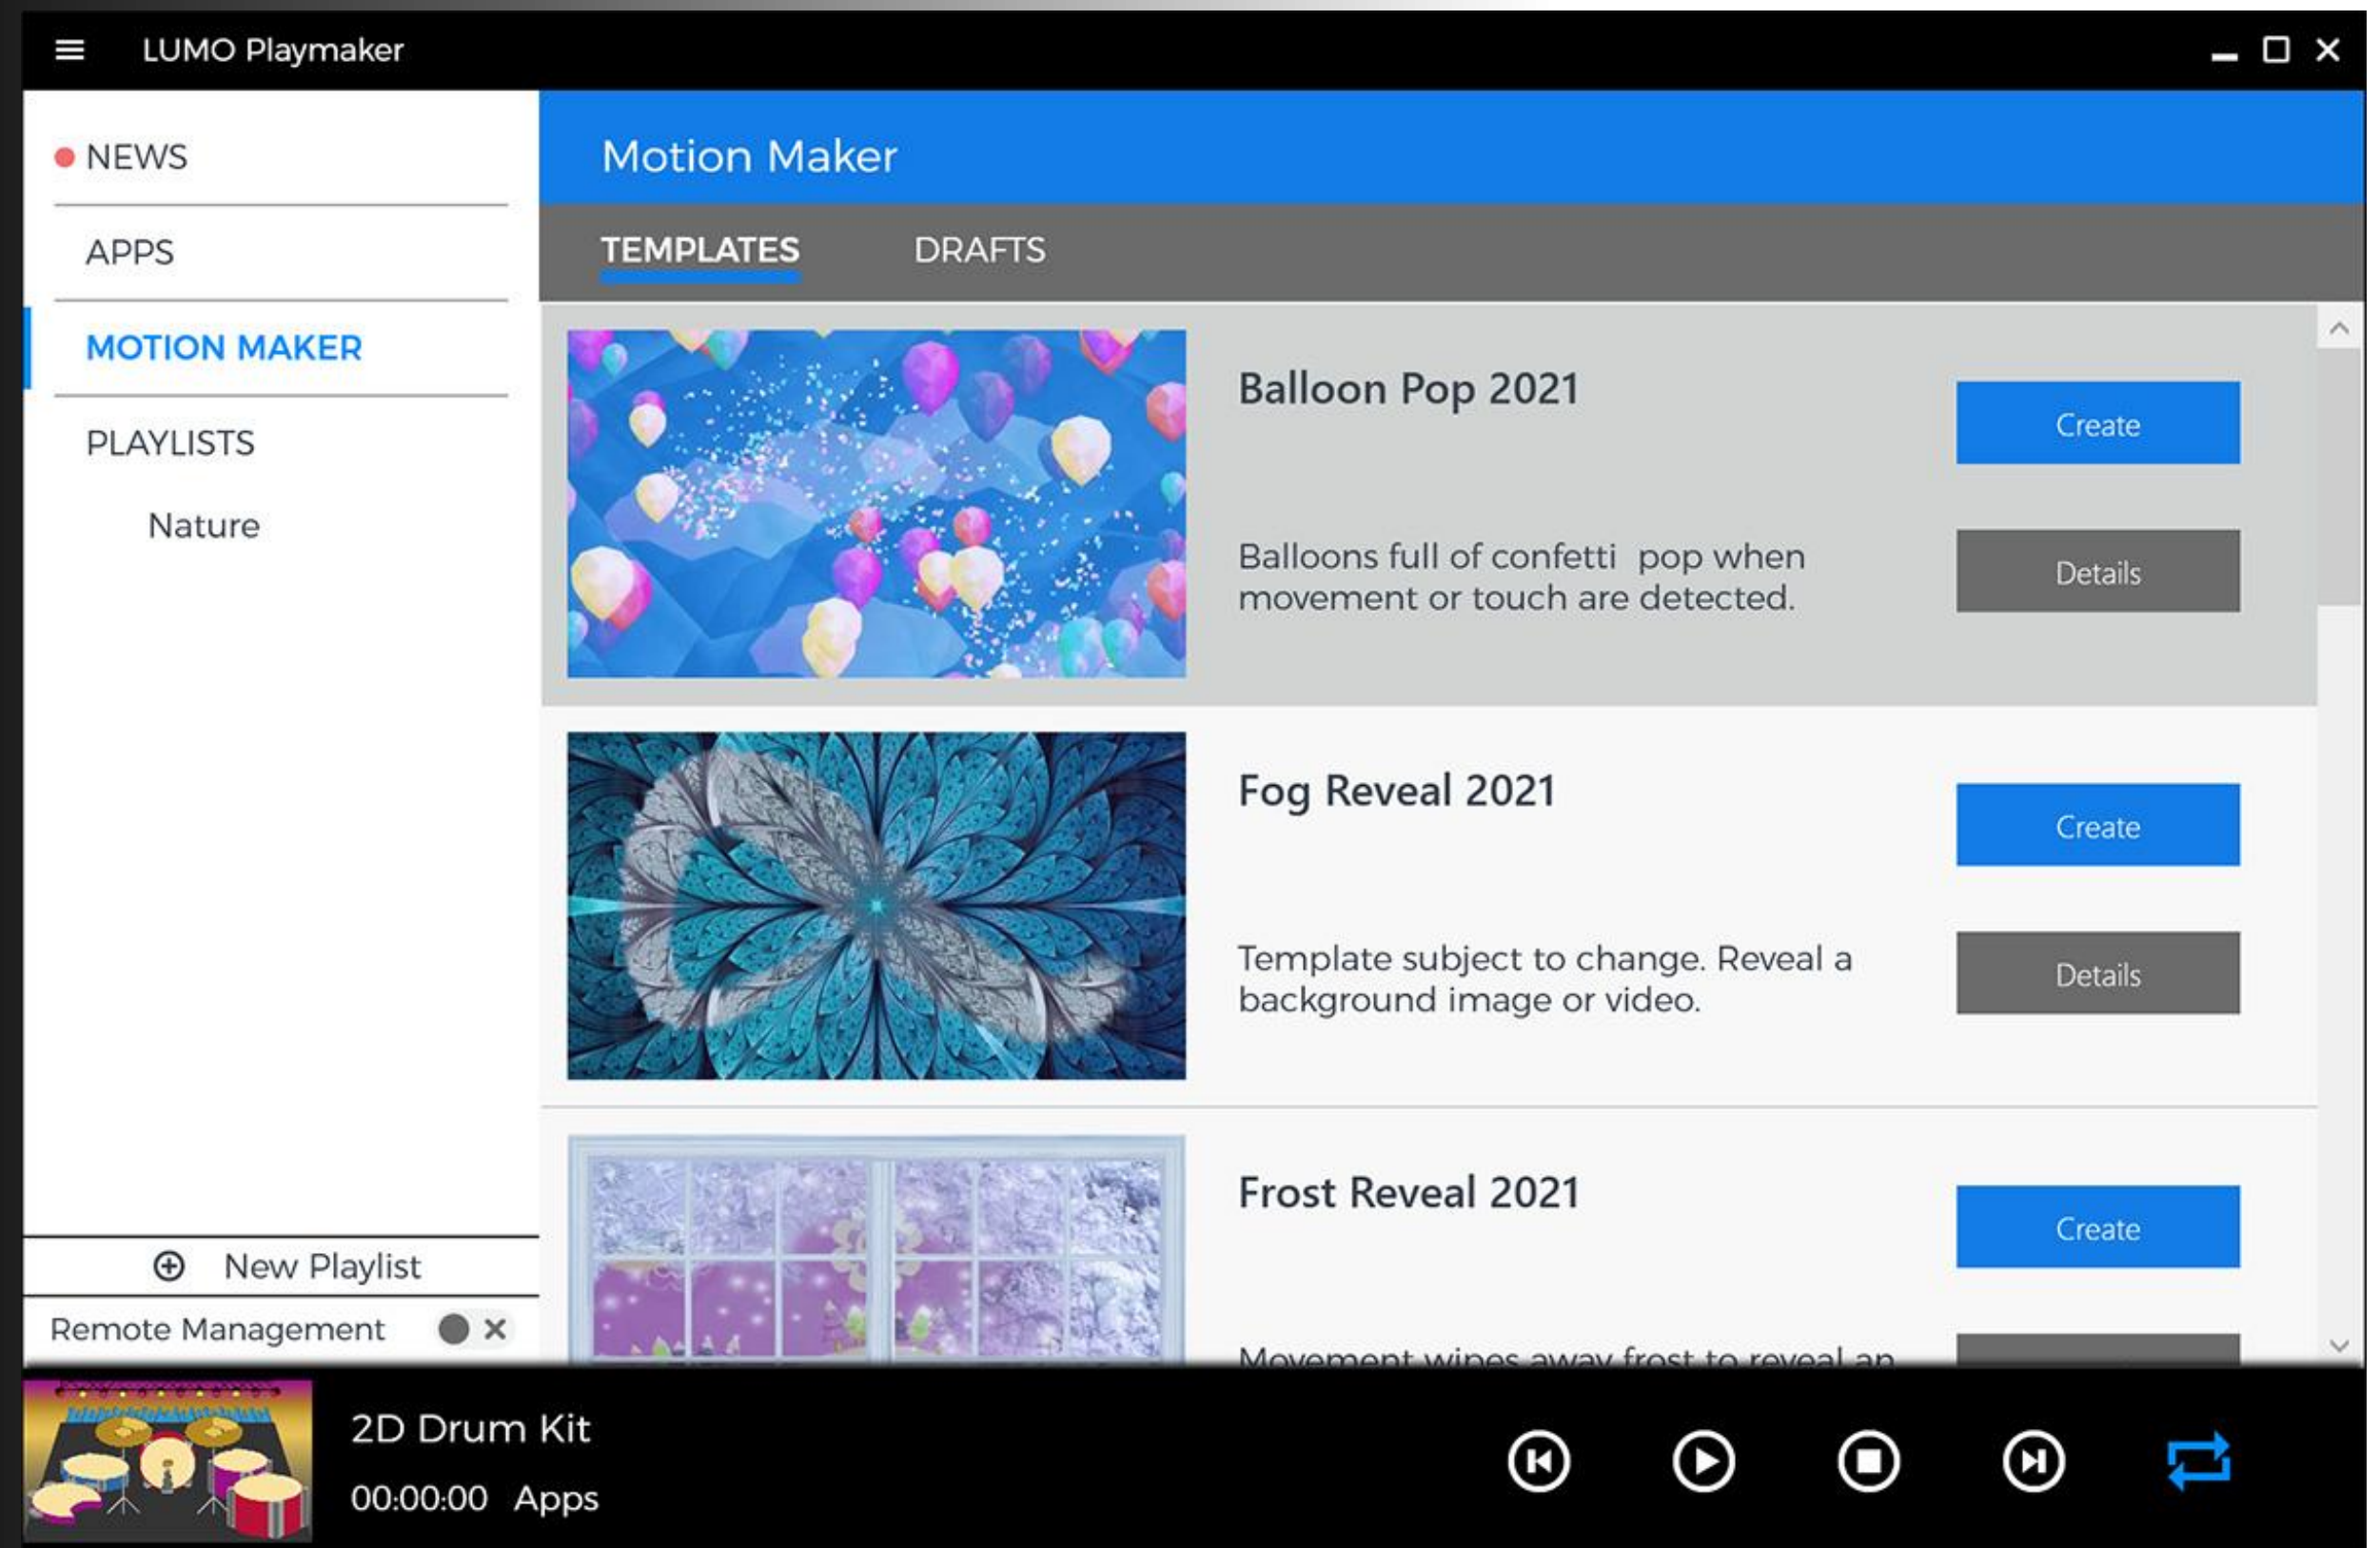

Encourage
kinetic learning
and problem
solving.

Engage special
needs and
medically fragile
children with
sensory apps.

Includes code-free app making tools for teachers and students!

“LUMO Interactive keeps my students’ attention in a way that sitting behind a desk never could.”

Tanya, Collingwood Day School
